

7 May 1946

SUBJECT: Publications Review Subcommittee

25X1A

[] proposed draft in compliance with para 2 a of Planning Directive No. 30 was reviewed today. [] decided 25X1A that the letter should be redrafted, so as not to express concurrence in the opinion expressed by JIC, but rather to state affirmatively the function which the Director believes the NIA should assume. The letter is then to go on to state that an appropriate CIG action is to be prepared.

It was also decided that the memorandum from [] to 25X1A the Director will specify that an appropriate CIG action, initiating some form of publications review committee under NIA, will be submitted later. S

Suspend informally for check on 10 May.
